

## Taiwan Prayer Walk Trip Report ~ George Wu, California

May 2007

(1) It is an honor and a privilege to be a member of the team of prayer walkers during the parade of the idol "MaTsu." We are presenting the Kingdom of God while the idol is "walking around." It is kind of strange that you worship and praise God in the same environment of idol worshipping, with big noise and lot of people around you, definitely not like the church environment that people familiar with. More strangely, I was much more concentrating on our Lord Jesus Christ than the time that I worship in a church meeting. No matter what was happening around me, God's peace and joy were always in my heart, and nothing was able to distract me away from the face of my God.

(2) The most joyful activity that I had during the prayer walk was to lay hands on people and pray for them, especially laying hands on young kids. I can feel that whenever I touch a person, the blessing words that came out from my mouth were changing that person's life, something was happening in the spiritual realm.

You can see the effects through the eyes of that person, and I do believe that there was some protection on that person so that the darkness cannot harm him or her anymore, and that's why I love to lay hands on little kids, since I want them to be protected by God and spiritually be separated for Jesus Christ.

(3) People that follow the idol "MaTsu" are really hungry for blessing. There are probably a lot of problems and uncertainties in their life, so they were seeking for blessing from the "gods" that they were educated or told. Unfortunately, they were worshiping a dead "god," and it gives them destruction instead of blessing. People need to be taught about Jesus Christ, with signs and wonders to backup our teachings and preaching. This is definitely our job that need to be done quickly, wisely, and properly.

(4) It is also fun to declare the victory of Jesus Christ on the towns that we were visiting. Although I haven't seen it, I do believe that it is happening. This kind of faith gave me a lot of encouragement to boldly declare the Kingdom of God be appeared on those towns, streets, and temples.
